Il presente documento è da intendersi indicativo e non esaustivo in merito alle configurazioni proposte.

In particolare l'analisi proposta tiene conto, in prima istanza delle dimensioni geometriche dei locali.

Per l'attività congressuale ed in riferimento alle configurazioni individuate quali: "cocktail", "banchi di scuola" e "ferro di cavallo", ci si è confrontati con le indicazioni fornite dagli standards internazionali. Per la configurazione "banchetto" i riferimenti normativi sono stati individuati con la D.G.R. 1887/97, di revisione Circ. Reg.38/87 "Criteri generali di valutazione dei nuovi insediamenti produttivi e del terziario.

Per ultimo, tutte le attività di pubblico spettacolo, quali teatro, cinema, ecc, le indicazioni fornite, sono da intendersi conformi alle disposizioni del D.M. 149 del 19 agosto 1996 (allegato Regola Tecnica - titolo III "Distribuzione e sistemazione dei posti nella sala", comma 3.1 e 3.2).

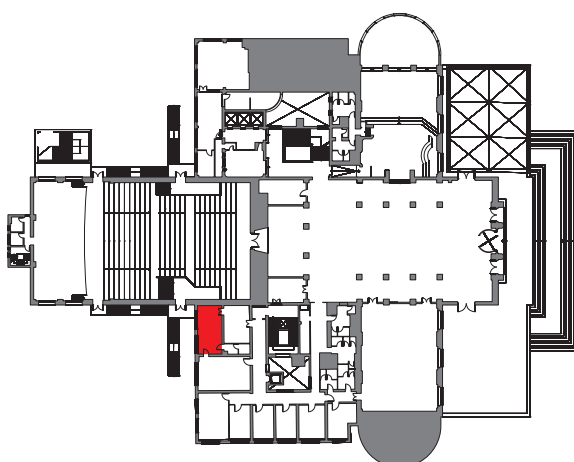

Pur tuttavia qui non sono state verificate altre condizioni, quali le caratteristiche statico-strutturali dei solai, nonché i requisiti previsti dalla normativa vigente in materia di sicurezza e prevenzione incendi, di cui al D.M. 149 del 19 agosto 1996, di cui sopra, e successive modifiche ed integrazioni.
